

Water Plant Superintendent  
Lake Charter Township

Lake Charter Township, a community on the Southeast shores of Lake Michigan is seeking an individual for the position of Water Plant Superintendent. This individual will work under the supervision of the Township Supervisor and direction of the Township Board of Trustees. Superintendent will supervise the employees assigned to the Water Treatment Plant and Distribution System. The Township Water Treatment Plant is currently rated as a 7MGD, serving five surrounding communities with an estimated population of approx. 10,000 people. The Water Plant Superintendent will have an integral role in planned capital improvements.

Applicants shall possess a current F-1, S2 certification in the State of Michigan, a Michigan driver's license and shall have thorough knowledge of surface water treatment plant operations and maintenance procedures.

Applicants for this position should have considerable knowledge of water treatment regulatory and reporting requirements, laboratory practices and procedures, estimating capital improvements and subsequent preparation of budgets and possess excellent verbal and written communication skills. Experience in and the ability to train and supervise employees is also a requirement of this position.

Salary will depend upon qualification.
